Dear Sir or Madam:

The staff of the California Air Resources Board (ARB/Board) invites interested parties to attend the fifth meeting of the Crude Oil Screening Workgroup convened to discuss the crude oil screening process for the Low Carbon Fuel Standard (LCFS). The LCFS regulation was approved by the Board at the April 23, 2009 Board hearing. At that hearing, the Board also adopted Resolution 09-31 (Resolution) which includes a number of provisions related to ongoing work on the LCFS. Two provisions relate to the preparation of guidelines to assist regulated parties in determining carbon intensity values for new or modified fuel pathways.

During this meeting of the workgroup activities of the crude screening subgroup and proposals for the crude screening process will be presented and discussed. Drafts of documents will be available prior to the workshop at http://www.arb.ca.gov/fuels/lcfs/lcfs_meetings/lcfs_meetings.htm.

The meeting will be held at the following time and location:

DATE: Thursday, September 9, 2010
TIME: 9:00 a.m. to 12:00 p.m.
LOCATION: Conference Room 620
ADDRESS: Cal/EPA Headquarters Building
1001 "I" Street
Sacramento, California 95814

Directions to Cal/EPA Headquarters and public transit information can be found at the California Environmental Protection Agency's website at <http://www.calepa.ca.gov/epabldg/location.htm>.

If you require a special accommodation or need this document in an alternate format (e.g. Braille, large print) or another language, please contact Mr. Valentine Montoya at (916) 324-0428 or vmontoya@arb.ca.gov as soon as possible, for the scheduled event/meeting. TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
